

SACS CONSULTING &
INVESTIGATIVE SERVICES, INC.

SACS Consulting & Investigative Services, Inc. Meet our SACS Consulting Security Team

ABOUT SACS CONSULTING

SACS Consulting and Investigative Services, Inc. helps businesses get back in control of their business. Founded in 1989.

We serve corporate businesses and small businesses as well as school districts, city municipalities, churches and non-profit organizations.

WHO ARE THEY?

Our SACS Consulting Security team are highly trained, proactive security professionals focused on risk mitigation and rapid incident response. We can provide all of our services locally and nationally in all 50 states.

What makes SACS Security Officers different?

Our security officers are not just monitoring; they are trained security professionals focusing on creating a secure environment.

Our security officers are trained in surveillance, situational awareness, defusing and dealing with difficult people and identifying behavioral cues before issues escalate. Everyone is trained in the following: CIT (Crisis Intervention Training), Use of Force, Active Shooter, PhaZZer, OC/Oleoresin Capsicum, CPR / First Aid and AED.

Most of our SACS security officers are current / former military and law enforcement. They ensure a consistent higher standard security coverage with a focus on reliability and reducing risks to your assets and employees. They are very adept at handling high-stress situations, ensuring business continuity, and providing peace of mind.
